## TO THE TRADE.

---

*We have endeavored, in compiling this Catalogue, to make it as compact and plain as possible. There are many old designs which, by a constant demand, have become staple. We have added to these a large line of new goods of the latest designs and superior finish. Our prices will be found as low as the quality of the goods will warrant. After being indebted to the trade for a liberal patronage so many years, we believe that comment on the high standard in quality which we have always maintained, would be superfluous.*

*We shall, in the future as in the past, endeavor to merit a continuance of your favors.*

*Please notice changes in lists and discounts.*

A detailed engraving of a screw and a wire tied in a knot. The screw, on the left, has a sharp point and several visible threads. It is connected to a smooth wire that forms a complex knot, resembling a reef knot or square knot, before curving upwards and to the right. The entire illustration is rendered in a fine-lined, engraved style on a light background.
